

I am nice, smiling person, who tries to walk through life with good attitude. I am open minded and I like talking about one's hobbies as well as about mine. At first I seem to be modest and shy person, which I assume to be one of my advantage, because „*modesty is golden*” so is silence. I always aim to achieve my goals with small steps, it shows I am stubborn. I cannot quit my path when it comes to important and less significant matters. I am guided by one of the maxims in my life: *Everything is simple but not easy* by Napoleon Bonaparte. That is why, the stubbornness in each my action pushes me to next challenges. Work and studying are my hobbies, I spend a lot of time on it. They are keys to my power, which I constantly try to deepen. In my free time I like to read a good novel or the newest bestseller – for relaxation, often with a cup of good tea in my hand. I also like watching good movies.

My next passion is travelling – both abroad and around the country. I think, that you don't have to leave Poland to see breath-taking landscapes, admire wonderful views: „the most beautiful things are around us”. Unfortunately, in the rush of everyday life we tend to forget about it. Travels cause a man to break away from reality to forget for a while and admire the beauty of our planet. For me, it means relaxation from work, learning, deeper look into my soul and gives me energy for further work – it doesn't matter where our peaceful place is. Sometimes it collides with our financial possibilities, but we should try to relax, take pictures and sightsee those places as long as we can. We only have one life, that is why I try to fulfil it with joy and vivid emotions. I live it and I catch every day, hoping that it will not be wasted.

I encourage you to watch and read the information in each tab on my website, as well as scientific papers from AMUR UAM Repository. I will also try and answer all emails sent to me.

In the end, I would like to thank my friend Kasia, who created this website with me, her help is invaluable. I also thank my relatives, who supported me during website creation – they still do. There is only one word left to write: *Read it...* so you can judge the rest.
